PROFESSIONAL SUMMARY

A motivated, adaptable, and results-driven professional with a strong commitment to delivering high-quality work, continuously enhancing skills, and contributing effectively to organizational growth. Eager to embrace new challenges, apply innovative thinking, and build a meaningful career through continuous learning, collaboration, and consistent performance.

EDUCATION

- **A. C. Patil College of Engineering 2022 -2025**
  B.E- Artificial Intelligence and data science | CGPA :7.30/10.00 *Navi Mumbai, Maharashtra*
- **Bharti Vidyapeeth College of Engineering 2019-2021**
  Diploma| Percentage: 80.20, *Navi Mumbai, Maharashtra*

WORK EXPERIENCE

PSITECH CONSULTANCY SERVICES PVT LTP — AI/ML ENGINEER MAY 2026 -PRESENT

AI VOICE CALLING AGENT

- Developed a real-time AI voice agent platform that enables businesses to automate inbound and outbound customer calls using a **Twilio(telephony)** for real-time conversations
- Built and integrated an end-to-end conversational AI pipeline using **Deepgram for Automatic Speech Recognition (ASR)**, OpenAI LLMs for contextual response generation, and **ElevenLabs for Text-to-Speech (TTS)**.Deployed the AI voice agent service on **Dockerized VPS** with Nginx/SSL.

AI PIPELINE FOR AN ENTERPRISE LMS AND CORPORATE CONTENT GENERATION PLATFORM

- Building an AI-powered enterprise LMS that lets teams record **multi-camera training videos**, auto-edit them with AI, and publish directly to their organization.
- Developed a **GPU-local AI pipeline** using Python, FastAPI, Ollama, **Qwen3, Kokoro, LongCat, and FFmpeg** to automate document understanding, visual generation, voice synthesis, and source-grounded content-to-video creation for enterprise training.

RED FIRBE PVT LTD — AI/ML ENGINEER AUG 2025 – APR 2026

WhatsApp automation & Storytelling Application

- Built an automated WhatsApp auto-reply system using **n8n**, **WhatsApp Business API** and Phone ID integration, enabling real-time customer query handling without manual intervention
- Developed an **AI-powered interactive storytelling application** using Google Gemini API, engineering custom prompts to have the **LLM** act as a storytelling expert that generates dynamic narratives based on user-defined character names and behaviors

RAG CHATBOT FOR WEBSITE & CREATE AN IMAGE TO 3D

- Built an AI chatbot/virtual assistant using **Retrieval-Augmented Generation (RAG)** architecture, combining a **Vector Database** with an LLM to deliver context-aware, accurate responses grounded in custom knowledge sources
- Created an **image-to-3D model conversion pipeline using n8n automation** workflows, integrating third-party 3D generation tools to convert 2D images into 3D assets

SKILLS

- **Technical Skills:** Python ,SQL, Machine Learning, AI
- **Programming Languages:** Python ,CSS, HTML, JAVA, Next.js, TypeScript, Prisma, PostgreSQL, AWS S3/CloudFront, and Docker
- **Tools:** VS code, Git/GitHub, Jupyter Notebook, MySQL, AWS
- **Soft skills:** Team Management, Effective communication and teamwork, Adaptability
